The name of the game in fruit processing

Simply the Best. The strive of every professional is to provide an optimum product or service – better than all the rest.

Topical expert knowledge is required to stay abreast. In the fruit processing industry, the professional magazine FRUIT PROCESSING has been providing what is needed to allow constant improvement and sustain your competitive advantage.

Overviews and outlooks on crops and produce together with specific sales figures per country are featured. Findings from scientific research and development as well as product and company news are covered in every issue.

Still to come this year are

- beverage packaging, e.g. glass, paperboard, PET, cans
- citrus processing, e.g. NFC, cooling and chilling
- filling technology, e.g. ACF, conveying, capping
- juice treatment, e.g. filtration, sterilization and pasteurisation
- organic drinks, e.g. markets, products, marketing
- quality control, e.g. hygiene, inspection and sorting systems
- shows and fairs, e.g. drinktec, Anuga

FRUIT PROCESSING is issued every two months as double issue, and made available in print as well as online. It is read in 68 countries worldwide by more than 25.000 readers per issue.

Secure your future success.
