INTERNATIONAL JOURNAL FOR THE FRUIT PROCESSING, JUICE AND SOFT DRINKS PRODUCING INDUSTRY

Innovation is our obsession

While you focus on your next success story, we focus on the ingredients that will bring it to life. Natural purees and concentrates that will make your brand stand out and keep consumers coming back, time and time again.

SVZ is at the forefront of innovation and creativity in fruit and vegetable ingredients because that's all we do. Select and nurture the world's most delicious, sustainable crops and transform them into premium fruit and vegetable purees and concentrates. Let our obsession fuel your innovation.

New Publication!

The production of apple juice is a carefully engineered sequence of technological measures aimed at extracting the valuable, flavoursome, enjoyable and desired contents from apples and presenting them to the consumer in the very best packaging.

With this book, up-to-date information is now available to practitioners keen to learn what's new in the increasingly automated production. The book sheds light on the back-ground to modern apple juice technology without delving too deeply into scientific detail.

This book is intended to be of service to school and college students, skilled and master craftsmen and engineers.

It will help to answer the many questions about

"How does that work?", "Is there an alternative to this method?" and "Can I do something better in my operation?".

Content: raw material, juice extraction technology, juice treatment, manufacture of apple juice concentrates, yield calculation from various juice extraction methods, recycling of pomace and sludge.

WATER TREATMENT

The impact of environmental matters on business performance in the food & beverage industry is increasing and will continue to do so. In the dynamic field of food & beverage wastewater treatment increasing numbers of new systems have been tested over the past decades. The latest technologies aim to meet ever stricter regulative demands as well as to ensure continuous improvement towards operability and efficiency, thus reducing operational expenditure. By being able to set precise environmental Key Performance Indicator (KPI) targets – commercial as well as social – KPI's are being taken to the next level ...

PRODUCT DEVELOPMENT

Huanlejia, well-known as a Chinese producer of food and beverages, recently started producing its coconut milk – formerly packaged in HDPE – in PET bottles. Its main objectives in this change were to reinforce its brand image and increase production speed. The company relied on Sidel's 40-year expertise in aseptic packaging to make this happen. The new coconut milk PET bottle, already awarded by local consumers, is produced on two Sidel complete aseptic PET packaging lines, running at 48,000 bottles per hour (bph) ...

FILLING & PACKAGING

Priority for fully recyclable PET bottles: when the German Packaging Law comes into effect on January 1, 2019, the new legislation will set down binding rules to increase recycling quotas. The amendment will levy higher fees for packaging which is difficult to recycle. This includes non-returnable PET bottles with composite materials for juice and nectar, among other products. Juice and nectar producers are thus currently looking for solutions which will help them to avoid the ensuing increase in costs. Here, FreshSafe PET® technology from KHS presents a viable alternative as it combines product protection with bottle-to-bottle recyclability ...

MARKET RESEARCH

Mintel has announced three forward-looking trends which will lead the momentum of global food and drink innovation in 2019 and beyond. The trends are named Evergreen Consumption, Through the Ages and Elevated Convenience. To match the premium expectations of consumers in the on-demand age, convenience food and drink will get an upgrade ...
