**First-ever aseptic PET line
for Sicilian Coca-Cola bottler**

FLAVOURS & INGREDIENTS

Zona Negri

How ‘Newstalgia’ is redefining Asia’s comfort foods 42

In an age of constant change, consumers are seeking joy in the small, everyday moments, and food and drink are proving to be powerful emotional anchors. Familiar flavours are no longer just about taste; they are expressions of identity, memory, and belonging, helping people stay connected to who they are and where they come from. At the same time, these flavours are evolving, creating space for brands to blend reassurance with creativity, rather than choosing between the two ...

DISINFECTANT SYSTEMS

A success story at Romina Mineralbrunnen

Innovative ECA technology meets ice age water. 44

Being based in Reutlingen, Romina draws mineral water from a deep well formed during the last Ice Age. State-of-the-art electrolysis technology guarantees a high standard of hygiene in beverage bottling. For 18 years, beverage manufacturer Romina Mineralbrunnen has relied on ECA technology with membrane cell electrolysis for hygiene. Over the years, almost the entire production has been converted to disinfection with Innowatech Anolyte® ...

ASEPTIC FILLING

First-ever aseptic PET line for Sibeg Coca-Cola 48

Sibeg Srl partners with Sidel to install a complete aseptic line featuring the Aseptic Combi Predis and EvoFilm Stretch; empowering innovation and meeting sustainability goals. Sibeg, established in 1960 and headquartered in Catania, is the official bottler of the Coca-Cola Company, based in Sicily. With around 400 employees and eight production lines, ranging from soft drinks to energy beverages, Sibeg handles the production, bottling, distribution, and development of ...

NETWORK TRAFFIC MONITORING

Henry Martel

Why network traffic monitoring is mission-critical in 2026 52

Network traffic monitoring has evolved from a nice-to-have administrative tool into an essential cybersecurity defense mechanism. As organisations face increasingly sophisticated threats – from AI-powered attacks to ransomware-as-a-service – real-time visibility into network activity is no longer optional. Network traffic monitoring encompasses the continuous analysis of data flows across network infrastructure, tracking bandwidth consumption, application performance, and security anomalies. Modern implementations leverage machine learning algorithms and behavioral analytics to detect threats that traditional signature-based systems miss entirely ...

UPCYCLING

UPCYCLE Project launches

Transforming non-recyclable plastics into circular and non-persistent packaging solutions 56

The UPCYCLE project, funded by Horizon Europe under the European Health and Digital Executive Agency (HADEA), officially kicked off with a two-day meeting in Gent, Belgium. Coordinated by Aalborg University (Denmark), the project brings together 19 partners from 12 countries to develop novel circular value chains that convert non-recyclable plastic waste into highly recyclable and non-persistent packaging materials ...

PACKAGING

KHS and SLMG Beverages: Right on time

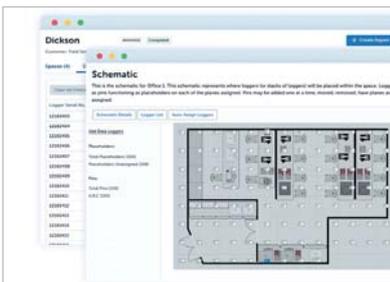

KHS InnoPET TriBlock speeds up PET production at SLMG Beverages in India. 58

Just in time for the start of the high season, soft drinks bottler SLMG Beverages has increased the capacity at its facility in Chhata by 35 %. The key driver here is an InnoPET TriBlock from KHS – this time for the Coca-Cola system in India. With more than 240 million residents, Uttar Pradesh in the north of India is the most populated state on the subcontinent ... Accordingly, the potential for the beverage industry is huge. Up until 15 years ago, carbonated soft drinks were still the privilege of rich and middle-class families. This has changed ...

WAREHOUSING & STORAGE

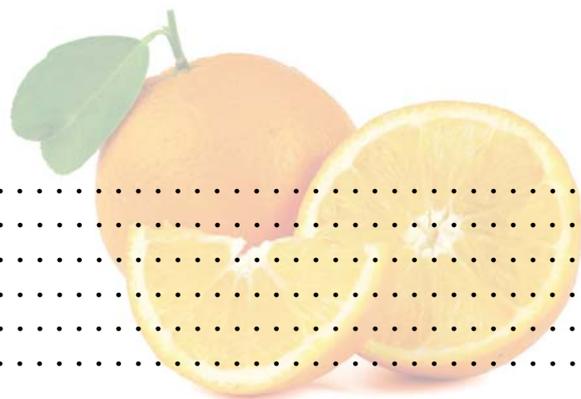

Dickson launches Mapping Suite 60

The Dickson Company announced the introduction of its Mapping Suite in Europe Middle East, Africa (EMEA) and Asia Pacific (APAC), a comprehensive solution designed to help organisations streamline regulatory compliance and enhance operational efficiency through cloud-based, scalable mapping tools. Ideal for pharmaceutical, life sciences, healthcare, warehouse and logistics providers, Mapping Suite is an innovative and flexible platform, further positioning Dickson as a leader in environmental monitoring and compliance ...
